## WASHINGTON. GRAND ARMY'S NEW CAMPAIGN.

*Will be for an Increase of the Pension Rate.*

*New Law Would Add Twenty-five Million Dollars.*

*Three More Indictments in the Postoffice Case—Columbus an Gun Committee.*

*BY DIRECT WIRE TO THE TIMES.—WASHINGTON, Oct. 1.—(Exclusive Dispatch.) Commissioner of Pensions Ware has been doing some figuring to find out what it would cost the government to put into force the recommendations of the Grand Army veterans for a more liberal pension law. He finds that the proposed law would add something like two hundred thousand pensioners to the roll, and that it would cost the neighborhood of \$20,000,000, to pay the additional pensions.*

*The general idea of pension legislation will take up much of the time of Congress in the coming session, for the Grand Army leaders have announced their determination to inaugurate a vigorous campaign for the enactment of a law to pension thousands of veterans who are not now eligible for a government bounty. This will be in the way of following out the resolutions that were adopted during the annual encampment in San Francisco.*

*At that gathering, it was agreed to ask Congress to pass a law giving a pension of \$12 a month to every surviving soldier who served ninety days in the Civil War, and who was an honorable member of the service.*

*This is a proposition more sweeping in character than anything that has been proposed since*

*the act of June 27, 1890, was passed, which added more than half a million of pensioners to the roll. Some of the veterans think that the demand of the San Francisco encampment is too mild, in that it does not ask anything for the widows and children of ninety-day soldiers. For instance, John McGroarty, editor of the National Tribune, organ of the Grand Army of the Republic, is advocating a straight service pension of \$12 a month to be paid to soldiers' widows and children alike. He thinks it was unwise for the encampment to have gone on record as favoring a more moderate enactment, and proposes to continue his campaign for a more liberal law.*

**COLOMBIAN CANAL COMMITTEE.  
URGES A FREE HAND.**

*(By the Associated Press—P.M.)  
WASHINGTON, Oct. 1.—The State Department today received a cablegram from Minister Beaupré at Bogota, dated September 28, stating that the report of the committee of the Colombian Canal will be presented in a few days.*

*The report approves the resolution of the treaty August 12, but disapproves the proposal to enact a law to empower the President to open negotiations for the construction of the canal under certain specified conditions.*

*The object, the committee says,*

*is to leave the Colombian government at liberty to negotiate a fresh treaty without restriction. It seems, says Minister Beaupré, that the report will probably be adopted.*

**SHOTGUN QUARANTINE.**

*(By the Associated Press—P.M.)  
WASHINGTON, Oct. 1.—Fearing an epidemic of yellow fever a number of persons living along the Rio Grande have appealed to the War Department for the establishment of "shotgun" quarantines and that the soldiers be ordered to this duty. While the officials of the department are alive to the necessity of action to prevent the spread of the disease, they have announced that the present outbreak does not justify such radical steps as contemplated for the troops.*

**COTTON AT BEIRUT.**

*(By the Associated Press—P.M.)  
WASHINGTON, Oct. 1.—The Navy Department has received a cablegram from Admiral Cotton, dated at Beirut yesterday, saying that the American Consul had received word from Minister Leishman that the new Turkish Governor-General had started for Beirut. At Admiral Cotton's request, the collier Alexander had been ordered from Port Said to Beirut to coal the squadron there.*

**ABYSSINIAN MISSION.**

*(By the Associated Press—P.M.)  
WASHINGTON, Oct. 1.—The President today received a call from R. P. Skinner, United States Consul at Massilia. Skinner was at the State Department today conferring with Acting Secretary Loome about his prospective visit to King Menelik. He is greatly impressed with the trade possibilities for American goods in Abyssinia, and hopes that his mission will promote our trade. Contrary to the general impression he says that over one-third of the goods at present imported into Abyssinia have their origin in the United States, although being shipped through England or France, they appear in trade statistics as exports from those countries. More than \$10,000 in American cotton goods go annually to Abyssinia.*

**TONOPAH OUTRAGES.**

*(By the Associated Press—P.M.)  
WASHINGTON, Oct. 1.—The Chinese Minister is in receipt of information from his representative at Tonopah, Nev., where recently an attack was made on the Chinese residents, that the local authorities have arrested and put in jail seventeen men, and to have been implicated in the assault. A list of the damages suffered by the Chinese is being made up, and when completed, will form the basis of a claim against the United States.*

**PUBLIC DEBT STATEMENT.**

*(Decrease for September—  
(By the Associated Press—P.M.)*

*WASHINGTON, Oct. 1.—The monthly statement of the public debt shows that at the close of business on October 26, 1902, the debt, less cash in the treasury, amounted to \$917,732,545,*

*which is a decrease for the month of \$6,171,112. The debt is recapitulated as follows: Interest-bearing debt, \$912,528,449; debt on which interest has ceased since maturity, \$1,197,056; debt bearing no interest, \$385,452,239; totals, \$1,495,009,734.*

*This amount, however, does not include \$302,760,349 in certificates and treasury notes outstanding, which are held by an unknown amount of cash for their redemption. The cash in the treasury is classified as follows: Gold reserve, \$150,000,000; trust fund, \$169,000,000; in national bank deposits, \$161,784,865; in trust funds of the Philippine Islands to the credit of the United States disbursing officers, \$2,666,365. Total, \$1,383,546,134.*

*In addition, there are demand liabilities outstanding amounting to \$384,646, which leaves a cash balance on hand of \$359,417,134.*

**FAILURES OF BANKS.**

*(Two EASTERN SUSPENSIONS.—  
(By the Associated Press—P.M.)  
WASHINGTON, Oct. 1.—The Comptroller of the Treasury has received a telegram announcing the failure of the Packard National Bank of Greenfield, Mass., of which Examiner Frank T. Fish has been appointed receiver and of the Bolivar National Bank of Bolivar, Pa., of which Examiner John Cuningham has been appointed receiver.*

*BOLIVAR BANK.*

*(By the Associated Press—P.M.)  
JOHNSTOWN (Pa.), Oct. 1.—The Bolivar National Bank has failed today following a persistent run which began three weeks ago on rumors that the bank was unsafe. President Hammontree stated that the bank will be unable to meet its obligations.*

**BIDS FOR BATTLESHIPS.**

*(Two BIG ONES IDENTICAL.—  
(By the Associated Press—P.M.)  
WASHINGTON, Oct. 1.—Bids were opened at the Navy Department today for 16,639 tons of armor for the battleships Vermont, Minnesota, Kansas, Mississippi and Idaho. The bids of the Carnegie Steel Company and L. B. & H. Lehigh Steel Company were identical, namely \$694,445, delivery to be*

*in nine months.*

*The only other bidder was the Midland Steel Company, whose bid was \$686,862, delivery to begin within*

*Michigan."*

*Senator Stewart of Nevada was more explicit, and after his interview with the President, he made this statement for publication:*

*"I told the President that if he wins the fight he now has on his hands he will be immortal. If three million men are able to control nearly millions of people, the death of the republic is at hand."*

*"The President has begun a fight for a declaration of independence, and the crisis we are approaching is the greatest that has confronted the country since the republic was formed. If the President backs down from this stand we will have a battle to the death between the forces of union labor and the millions of people who demand a right to labor and live as they please. Bloodshed will follow."*

*"If the President stands firm in the position he has taken, he will be re-elected; if he backs down, he will be beaten."*

*Senator Stewart explained that in talking about "backing down," he did not mean to intimate that there is the slightest chance that the President will back down; he (Stewart) was merely trying to illustrate the consequences that would follow such an impossible thing.*

*"The President has begun a fight for a declaration of independence, and the crisis we are approaching is the greatest that has confronted the country since the republic was formed. **millions of club voters.**

**National Republican League in Flourishing Condition.**

**Meeting of Executive Committee Called at Chicago.**

**"Windy City" to Get Convention. McLachlan Wants to Be United States Senator.**

**(BY DIRECT WIRE TO THE TIMES.)**

**CHICAGO, Oct. 1.—[Exclusive Dispatch.]** More than one hundred thousand and Republican voters will be organized under the banner of the National League of Republican Clubs when it comes time to cast votes for the next President of the United States. This prediction was made today by J. Hampton Moore, president of the organization, when he called to order a meeting of the Executive Committee of the organization at the Auditorium Hotel. More than thirty-five clubs were represented at the meeting. The organization now boasts of more than half a million members, several States having nearly one thousand clubs.

The purpose of the meeting in Chicago is to lay the preliminary plans for the campaign next year. All the working committees are now filled to the full quota, their business particularly the States, how to run the campaign and the like. A plan for holding next year's convention will be selected, Los Angeles, St. Louis, Chicago, Indianapolis, Grand Rapids, Philadelphia, New York, Hot Springs, Washington and several other cities being bidders for the honor. In Chicago, the Hamilton Club is the chief representation of the league, and the delegates will be entertained there tomorrow.

"While not committed to any candidate," said President Moore, "the league is prepared to take an aggressive stand in the field for the national ticket of the Republican party. It is always in line to say something good of the President. In the Southwest, particularly, and the West as a whole, Roosevelt Clubs are being organized without number."

**INDIANAPOLIS CHOSEN.**

**(By the ASSOCIATED PRESS—P.M.)** CHICAGO, Oct. 1.—Indianapolis was selected for the holding of the coming convention of the National League. The date will be announced later. Plans will be made for party rallies in every State in the union in the coming campaign to be held under the personal direction of officers and men of the Executive Committee.

**REPUBLICAN CONVENTION.**

**WILL GO TO CHICAGO.**

**(BY DIRECT WIRE TO THE TIMES.)**

**WASHINGTON, Oct. 1.—[Exclusive Dispatch.]** In spite of the efforts which Pittsburgh is making to secure the Republican National Convention next year, it will go to Chicago. That is the great city for Republican national conventions. Garfield was nominated there in 1880, Blaine in 1884 and Harrison in 1888.

St. Louis is in the market for both conventions, but the prevalent feeling is that it has it can take care of itself in \$20,000,000 World Fair, which its people have subscribed so handsomely that they will have little cash left with which to bid for a convention.

Most of the delegates from a distance would include a visit to the fair with the convention trip, so that St. Louis would profit about as much without actually holding the convention in its own borders.

Milwaukee, the closest rival of Kansas City four years ago for the honor of having the Bryan convention, will again figure in the lists.

**MURPHY THROTTLES TAMMANY.**

**FORCES HIS SLATE THROUGH.**

**(BY DIRECT WIRE TO THE TIMES.)**

**NEW YORK, Oct. 2.—[Exclusive Dispatch.]** Facing hot alone the threat of a bolt on the part of the Brooklyn Democracy, but a revolt within the Tammany organization, Charles F. Murphy, who though he sits in the Democratic city convention at Carnegie Hall, was in session until an early hour this morning. Congressman George R. McLeelan was nominated for Mayor, Edward M. Grout for Controller, and Charles D. Forges for president of the Board of Aldermen.

Reports is that it was the intention of Murphy to permit Grout and Forges to be defeated in the election, as planned when James J. Martin of the Democratic City Committee joined with the men from Brooklyn in opposing the nominations of Messrs. Grout and Forges, Martin, who had been the rival of Murphy for the Tammany leadership, declared he could not vote for the fusion candidates. It was felt among those who attended the convention that his action meant that the fight of Murphy to crush the McLaughlin machine was to be made in the opportunity among his foes in the campaign.

Murphy himself was made the target of a bitter attack. Martin W. Littleton, speaking for the Brooklyn men, invoked the names of John Kelly and Richard Croker, quoted from the bitter remarks made by Grout upon Tammany, and demanded that the present leader arise and defend his candidate.

The Brooklyn delegation present named Judge William J. Gaynor as their choice for Mayor, but when it was manifested that he bowed gracefully to the inevitable, ex-Bridge Commissioner John L. Shea, moving to make the nomination of McLeelan unanimous in a speech which indicated that whatever bitterness there had been in the Willoughby-street organization, the antagonism to McLeelan's candidacy was not as deep as had been supposed.

The Brooklyn organization proposed Julian D. Fairchild for Controller, as against Grout and Herman A. Metz for president of the Board of Aldermen, and against Forges.

**ANOTHER ACCOUNT.**

**(By the ASSOCIATED PRESS—P.M.)**

**NEW YORK, Oct. 1.—Charles F. Murphy, the leader of Tammany Hall, carried through his programme at the Democratic city convention, held at Carnegie Hall tonight. The Democrats named George B. McLeelan for Mayor,**

Edward M. Grout for Controller and Charles V. Farnes for president of the Board of Aldermen. Thousands crowded the hall and thousands were unable to gain admission. The boroughs of Manhattan and the Bronx, Queens and Richmond went solid for McLeelan, Mr. Bryan's delegate, with the exception of one man, voted for Justice William J. Gaynor. McLeelan received 434 votes and Gaynor 21.

The Kings' county delegation entered a protest with the Committee on Resolutions against the placing of the name of Bryan and the endorsement of the ticket, and they voted solidly against these men when it came to a question of nomination. James J. Martin, chairman of the Democratic city convention, who had voted to nominate Grout and Forges, whose names recently were placed on the features of Chicago weather today, the highest temperature being 74 degrees in the afternoon, and the low mark of 58 deg. was reached before sunrise. Tonight the indications are that a cool wave will follow, with a drop of 10 deg. or more, and a sharp wind from the lake by way of accompaniment. Showers fell throughout the Central West today.

Temperatures at 7 a.m.: New York, 68; Boston, Philadelphia and Washington, 66; Chicago and St. Louis, 64. **SHOPLIFTERS' WOES.**

Shoplifters who attempt to work in the State-street department stores will be given a little advertising in the future, and will be galvanized into private use of the stores. All persons caught stealing will be photographed, or turned over to the police. The like-named will be sent to the various stores, and the floorwalkers will be made acquainted with the features of the light-fingered workers and be able to recognize them when they enter the stores.

**GATES FOR YATES.**

John W. Gates today declared for Gov. Yates for another term, expressing the opinion that the Executive had not been treated fairly by the Chinese press. He thought the Chinese was good, clean man, and had earned another endorsement at the hands of his party. Gates said the one act of giving the State the Boys' Industrial Home at St. Charles is a monumental man in political life can be proud of.

**HUTCHINSON-CRANE.**

The wedding of Miss Emily Hutchinson and Richard T. Crane is said to have been fixed for October 14.

**DR. W. H. HARRINGTON.** Dr. W. H. Harrington, of Chicago, was married today at Oglebay, O., to Miss Mary Williams, daughter of Rev. Mark Williams of Peking, China. The bride and groom expect to go abroad as missionaries, and will leave this city October 19, sailing from San Francisco, October 31, on the steamer Copic.

**EDGEWATER WEDDING.**

The marriage of Miss Lois Peters, daughter of Mr. and Mrs. Van Loon Peters, to Herbert Fredrick Rawl took

## PITH OF NEWS FROM THE MIDDLE WEST.

**(By Direct Wire to the Times.)**

**C**HICAGO, Oct. 1.—[Exclusive Dispatch.] Lowering clouds and an occasional drizzle, with a brisk northwest wind and mild temperature were the features of Chicago weather today. The highest temperature was 74 degrees in the afternoon, and the low mark of 58 deg. was reached before sunrise. The male dress were of white and they carried white carnations. The bride wore pink crepe and carried daybreak carnations.

**MISER BLAINE MURDERED.**

**(By Direct Wire to the Times.)**

**O**MAHA, Oct. 1.—[Exclusive Dispatch.] George Blaine, a miser, was found murdered in the office of the C. B. Havens Coal Company here. He carried his money about his person, and his clothing was stripped off by his assailant. His motive for the crime being robbery.

**KANSAS CORN CROP.**

**T**OPEKA (Kan.) Oct. 1.—[Exclusive Dispatch.] Gov. Balay says Kansas will have about 70 per cent. of a full crop. In 1883 the State produced about 272,000,000 bushels, and the yield for this year will be in the neighborhood of 190,000,000 bushels.

**WAUKERAN LIBRARY DEDICATED.**

**(By Direct Wire to the Times.)**

**W**AUKERAN (Ill.) Oct. 1.—[Exclusive Dispatch.] The new Carnegie Library building, which cost \$25,000, was dedicated and opened yesterday. President Elam L. Clarke of the library board presented the building to Mayor W. W. Pearce, who lauded Carnegie in accepting the gift for the city.

**OBSTREPEROUS COLLEGIANS.**

**(By Direct Wire to the Times.)**

**H**AMILTON (O.) Oct. 1.—[Exclusive Dispatch.] In fantastic garb, the students of Oxford College at Oxford to-night captured a merry-go-round, after a fight with the proprietor, and followed up their victory by marching to the College for Women, where they were received by the students of Miami University and all took part in a "night-shirt parade." The Mayor says he will have the ringleaders arrested, and sent to the workhouse.

**CATTLE QUARANTINE ABOLISHED.**

**(By Direct Wire to the Times.)**

**S**PRINGFIELD (Ill.) Oct. 1.—[Exclusive Dispatch.] Gov. Yates today annulled the quarantine proclamation issued last December, prohibiting the shipment of cattle having foot and mouth disease from certain States into Illinois.

**ENGLAND.**

**(Continued from First Page.)**

**s**tand with free trade as Cobden understood it. I ought to make one exception. One great and successful effort was made by Cobden himself when he negotiated a commercial treaty with France in 1860. When I consider that treaty, I ask myself whether Cobden was right.

**D**etailing the history of this treaty, Mr. Balfour concluded that Cobden and Gladstone in negotiating it intended to offer a remission of taxation in return for which protectionist France was to make certain trading concessions, and, failing those concessions, the taxes were to be retained.

**I** consider that there is absolutely no difference between retaining a tax for domestic purposes which you would otherwise repeal, and imposing a tax which you would otherwise not impose for carrying out the same object. I confess that when I hear criticisms upon the German and French policy which caused those great industrial nations to accompany their protectionist friends in attacking Cobden's principles, I still believe that public opinion was not yet ripe for taxation of food.

**T**herefore, when we were told that it was outside the limits of practical politics to make such a treaty, I still believed that the evils of taxation of food had been overestimated by our own nation and logic justified.

**I** still believed that the public opinion of the country was not yet ripe for taxation of food, but I still believed that it was outside the limits of practical politics. He was not anticipating a general tariff war, but he thought we might inform the foreign country that our thought was treating us with outrageous unfairness that unless they modified their policy we should take certain steps in regard to certain articles imported by the country.

**H**e proposed to ask the country to reverse annual and altogether depart from their manner of public conduct that they never tried to obtain a remission of taxation for revenue.

**T**he speaker then read a pamphlet which contained an appeal signed by Sir R. H. Hope, P. & others, for funds to assist the destitute Macedonians. Temporary arrangements had been made with the Rev. Mr. Pond, an American missionary at Monastir, to receive and distribute the relief.

**RECRUITS WANTED EARLY.**

**(By the ASSOCIATED PRESS—A.M.)**

**S**OFIA, Oct. 1.—The War Ministry has ordered out the military contingents of recruits for October 13, instead of the beginning of the year, as the Turkish army of King Constantine for Germany, as "most effective," and the British government, therefore, continues preparations for eventualities.

In the meantime the Turkish diplomatic agent is conferring with the ministers here, and the new Bulgarian diplomatic agent at Constantinople, Mr. Littleton, who has been the rival of Murphy for the Tammany leadership, and the two men, which is to be decided in a formal protest of the insurgents.

**FIGHTING IN STRUMA VALLEY.**

**(By the ASSOCIATED PRESS—A.M.)**

**S**OFIA, Oct. 1.—[Exclusive Dispatch.] Dispatches received here from revolutionary headquarters assert that severe fighting continues in the Struma Valley. The insurgents, who had surrounded the Turkish post at Breit Forest, have been forced to retreat, losing three hours, after a fierce battle with the Turks.

**T**he Turks, however, who took place between the villages of Obidin and Kremf, resulted in the defeat of the insurgents. The troops burned both villages, and the Turks were defeated in Villages September 28.

**MUCH FIGHTING IS REPORTED AROUND MELNIK.**

**(By the ASSOCIATED PRESS—A.M.)**

**M**ELNIK, Bulgaria, Oct. 1.—The Turks are reported to have taken the town of Melnik, which had been held by the Bulgarians since the beginning of the war.

**RESCUE OF ANARCHISTS.**

**(By the ASSOCIATED PRESS—A.M.)**

**E**ASTON THREE THOUSAND JEWS INTO COOPER UNION UNDER PRETENSE OF HOLDING A RELIGIOUS CELEBRATION.

**(By the ASSOCIATED PRESS—A.M.)**

**N**EW YORK, Oct. 1.—Three thousand Jews, mostly men, women and children, mostly of the Jewish race, who crowded Cooper Union in the expectation of seeing the services in commemoration of the destruction of the Temple of Jerusalem, the name of God was profaned and holy days were denounced by the speakers, who ridiculed Jewish customs and religion.

**RECIPROCITY WITH CANADA.**

**(By the ASSOCIATED PRESS—A.M.)**

**N**EW YORK, Oct. 1.—Campbell Cutting of the Conference Committee presented the names of Henry Bischoff, Jr., for Justice of the Supreme Court, and Ralph E. Trautman for Sheriff. The former was appointed by the Board of Aldermen, Forges was nominated for Controller, and Charles D. Forges for president of the Board of Aldermen.

**REPORTS SAY COOPER UNION WILL NOT OPEN.**

**(By the ASSOCIATED PRESS—A.M.)**

**C**ooper Union will not open to-day, according to reports. The Board of Aldermen has voted to close the school.

**PROMOTING INDUSTRY DEPRESSED.**

**(By the ASSOCIATED PRESS—A.M.)**

**N**EW YORK, Oct. 1.—Papers filed for new concerns with a capital of \$1,000,000 or over in the Eastern States during September represented a total capitalization of \$7,000,000,000, which compares with \$7,800,000,000 in August. Last month the figures were \$5,200,000, Maine, which occupied first place in the previous month, came next with \$26,000,000.

**RODE ISLAND DEMOCRATS.**

**(By the ASSOCIATED PRESS—A.M.)**

**R**ODERICK GARVIN HEADS TICKET.

**(By the ASSOCIATED PRESS—A.M.)**

**P**ROVIDENCE (R. I.) Oct. 1.—Two hundred and twenty delegates representing the democratic party of Rhode Island met here today and nominated the following slate of candidates:

**GEORGE L. FARNHAM, ADLAID AL-CRIMBEAU, L. WOODROCK, SECRETARY OF STATE—J. J. GILMAR-**

**ATTORNEY-GENERAL—C. A. ALDRICH, SECRETARY OF TREASURY—CLARK POTTER, NORTH KINGSTOWN.**

**T**he platform, which was confined exclusively to State issues, was adopted without dissent.

**WE FAVOR IMMEDIATE REGULATION OF TRADE UNDER THE INTERSTATE COMMERCE AND TAXATION POWERS OF CONGRESS AND THE FEDERAL TAXES ON IMPORTS AND EXPORTS.**

**WE FAVOR NEGATIVE PLATFOM.**

FREE TRADERS  
ARE IN MINORITY.CONSERVATIVE ASSOCIATIONS IN  
ANNUAL CONFERENCE.

Cheers Greet Mention of Chamberlain's Name—Action on the Tariff Question Postponed Until After Balfour's Speech Defining Attitude of Government.

(BY THE ASSOCIATED PRESS—A.M.) SHEFFIELD (Eng.), Oct. 1.—(By Atlantic Cable.) The thirty-eighth annual conference of the Conservative Associations opened here today with an unprecedented attendance, attracted by the unusually interesting proceedings.

About 250 delegates were present. The Earl of Derby presided. The delegates who were prepared to voice the opposition to the preferential tariffs sat together, and appeared to be considerably in the minority.

In view of the adoption of the annual report, Mr. Lowe, M.P., deprecated the conference, expressing a decided opinion on the tariff question until Joseph Chamberlain had fully explained his views. Cheers greeted Chamberlain's name, and the interruptions of Mr. Lowe's remarks were so manifest that there were grave differences of opinion on the fiscal question.

Finally an official resolution on the subject of the fiscal controversy was moved by Sir John E. Dunraven, who said it was necessary to call for a resolution suggesting protection, passed by the same gathering in 1885. The resolution dealt solely with Premier Balfour's proposals.

It was agreed that no vote should be taken on the resolution until tomorrow after Mr. Balfour's speech tonight, defining the attitude of the government.

Henry Chaplin, M.P., formerly president of the Board of Agriculture and life-long protectionist, in supporting the official resolution, moved the addition of a "rider," thanking Mr. Chamberlain for his patriotic efforts, and expressing the hope that an independent scheme to promote a closer political and commercial union of the empire.

A vote on Chaplin's rider was ultimately postponed until tomorrow and the conference adjourned.

CHAMBERLAIN THE STAR.

(BY THE ASSOCIATED PRESS—A.M.) LONDON, Oct. 1.—The present exposition of free trade, which Mr. Chamberlain has contributed to the Daily Telegraph, is likely to prove far more interesting from the public viewpoint than Mr. Balfour's impending speech which, unless he makes some cabinet changes, will result in the removal of some personal opponents bearing on the recent ministerial resignations, will according to best information, be nothing more startling than an elaboration of his recent statement.

The letters of Mr. Ritchie and Lord George Hamilton, published on the eve of his speech, both breathe a sense of irritation which is echoed by the press this morning, and the whole world is astounded. The conservative organs confess themselves extremely puzzled at Premier Balfour's astonishing procedure of controlling Mr. Chamberlain's resignation.

BOUNDARY COMMISSION.

CARSON RESUMES ARGUMENT.  
(BY THE ASSOCIATED PRESS—A.M.)

LONDON, Oct. 1.—(By Atlantic Cable.) On the resumption today of the session of the Alaskan Boundary Commission, Lord Chief Justice Alverstone read a telegram from the Earl of Pembroke, brother of Sir Michael Herbert, the British Ambassador to the United States, who died at Davos-Platz, Switzerland, yesterday acknowledging the message of sympathy in the name of the entire Alaskan commission.

Sir Edward Carson, the Solicitor-General, then resumed his argument, traversing chiefly the points already discussed.

KEARNS FOR LIPSTON.

Senator from Utah Thinks the Yachtman Should be Appointed Ambassador to United States.

(BY THE ASSOCIATED PRESS—A.M.)

SALT LAKE, Oct. 1.—If King Edward would bring still closer together the English and American people, and if he would more firmly the commercial relations between the two great English and American people, and maintain the cordial relations of every character existing, he will make Sir Thomas Lipton next Ambassador to the United States, and not Senator Thomas Kearns today, in speaking of and lamenting the death of Sir Michael Herbert.

"Thomas Lipton has done more during his life for the cause of international good fellowship and genuine friendship existing between the American and English peoples," continued Senator Kearns, "than any of the many members of the British Isles. And he has done it without design or knowing it, and it has been done not altogether by his yachting contests. Sir Thomas is a typical representative of the best of England's citizenship. He is one of the most polished diplomats I have ever met, and I have met about all of them at Washington. He would make a great ambassador to America from England and I hope King Edward will realize his opportunity."

MADE BARONET SMILE.

(BY THE ASSOCIATED PRESS—P.M.)

CHICAGO, Oct. 1.—Sir Thomas Lipton smiled when told today that Senator Kearns had mentioned the Baronet as being an ideal successor to Sir Michael Herbert.

"Thanking the Senator for his good wishes," said Sir Thomas, "I must say I am not particularly interested in the possibility in the world of my representing Great Britain at Washington. If I were an Ambassador I am sure I know who would be King Edward's representative."

LIPSTON TESTIMONIAL.

(BY THE ASSOCIATED PRESS—A.M.)

SAN FRANCISCO, Oct. 1.—A number of men interested in yachting, as well as members of the Olympic Club and representatives of various industries of the city, were present last night at the meeting of the Thomas Lipton Testimonial Committee, at the Olympic Club. The committee is engaged in raising a fund in this city to be added to amounts raised in other portions of the United States, the aggregate to be used in purchasing a suitable testimonial to be presented to Sir Thomas Lipton, shortly, in appreciation of the American people for his thorough sportsman. Committees were appointed to visit the banks to get them to head the subscription lists.

OUTRAGED AND STRANGLED.

BRAINTFORD (Ont.), Oct. 1.—The body of Irene Cole, aged 19, the daughter of Peter Cole, expert for the Masonry brick company, was found on the bank of the river last night. Her clothing was torn to shreds and saturated with blood. The girl had been outraged and strangled.

MR. GUIDI RECALLED HOME AND ANY FUTURE NEGOTIATIONS WILL BE WITH PONTIFICAL SECRETARY OF STATE.

NEW YORK, Oct. 1.—Negotiations between the Vatican and the United States government regarding the safe of the islands held by the friars and the removal of the native monks from the islands have been called off by Pius X, according to a World dispatch from Rome.

MR. GUIDI, THE ROMAN PRELATE SENT

Bargain Friday No. 200  
The Eve of the Year

When this store commenced setting Friday aside as a bargain day for the disposal of remnants, short lines and broken assortments, Friday was the dullest day in the week. That was four years ago. The manager of an evening paper recently remarked that four years ago Thursday night's papers carried very little display advertising, and now the display advertising of Thursday evening is the heaviest of the week. In commemoration of this 100th Bargain-Friday we've prepared the most tempting array of underpriced merchandise ever offered in Los Angeles. There are 199 Bargain-Friday sales, every one a success, behind this; and when we say that for this Bargain-Friday No. 200 we're offering stronger, better and more tempting bargains than we've ever before given publicity, we know that our store will be crowded to its utmost.

## Linen Remnants

Linen glass toweling, 18 inches wide, red and blue checked; 8½c 10c quality; in remnants; Friday, per yard.

Absorbent crash, bleached, 18 inches wide, extra heavy quality; in remnants; Friday, per yard.

All linen brown crash, 18 in. wide, worth 8½c; remnants; Friday, per yard.

Bleached table damask; 55 inches wide; close, fine weave; worth 45c; remnants; Friday, per yard.

Pure linen unbleached table damask; extra heavy; 58 in. wide; fine quality; remnants; Friday, per yard.

Remnants of napkins, half dozen; worth 10c; 15c per pair; Bargain-Friday, per pair.

## The Los Angeles Times

Daily, Weekly, Sunday, and Weekly Magazines.  
Vol. 44, No. 121. Founded Dec. 4, 1881.  
EVERY MORNING IN THE YEAR.

NEWS SERVICE.—Full reports of the new Associated Press, covering the globe; from 35,000 to 50,000 words transmitted daily over the wires of the Associated Press, International, Western Union, and other news services.

STATION CIRCULATION.—Daily net average for 1902, 14,000; for 1903, 10,228; for 2000, 26,124; for 1904, 25,711; for 1905, 26,778; for 1906, 26,778; for year ended September 30, 1906, 26,778; for eight months, 1906, daily average, 36,200 copies; Sunday circulation, 33,000 copies.

TELEPHONES.—Counting Room, Subscription Department, Editorial Rooms, City Editor and Agents.—Eastern Agents: Williams & Lawrence, Nos. 81-85 Tribune Building, New York; 5 Washington Street, Chicago; Washington Bureau, 5 Post Building, where the latest copies of The Times may be consulted.

Bulletin—Classified Advertising—Entered at the Los Angeles Post Office, or transmission as mail matter of the second class.

Patrons visiting any of the seashore towns who wish the delivery of their paper changed, may leave the necessary notice at The Times office in Los Angeles, or at any of the following-named places and the same will receive prompt attention:

SANTA MONICA—A. E. Jackson, Agent, 236 Third Street.

OCEAN PARK—E. E. Graham, The Sun Confectionery, 175 Pier Avenue.

REDONDO—S. R. Commander, The Yellow Bazaar, foot of the "z" wharf.

LONG BEACH—F. J. Schinnerer, Bank Building.

CATALINA—Messrs. Clark & East.

HYDEWILD, STRAWBERRY VALLEY—At the Postoffice. W. H. Vickers.

## BUSINESS.

For the week ended yesterday the local bank clearings amounted to \$4,450,000, an increase of 354 per cent. over the corresponding period of last year, when the clearings were \$4,000,000. For the same two years ago, the figures stood \$4,035,375-04.

Severe demoralization in the early corn market at Chicago brought out considerable covering by shorts, which restored prices with only a loss of 4% for the day, December closing at 45¢-45¢. Stocks recovered vigorously at New York, the last prices showing advances of two or three points for the principle active stocks.

## THE ENEMIES HE HAS MADE.

Chief of Police Charles Elton is to be congratulated because of the kind of enemies he has made. Every reputable, law-abiding citizen of Los Angeles should esteem him more highly because of these antagonisms. They are decidedly and greatly to his credit. They are such antagonists as every conscientious, honest officer, who does his duty fearlessly and thoroughly, is morally certain to make. If Chief Elton had not performed his official duties thus thoroughly and unflinchingly, he would not have excited these antagonisms.

## VALUE OF MUNICIPAL FRANCHISES.

In a letter of congratulation addressed by the Municipal League to Councilman McAleer, congratulating him upon his stand behalf of adequate consideration for street railroad franchises, the league calls attention to the great value of such franchises as disclosed by the prices paid for street railroad systems when the purchases assuming all the bonded indebtedness. Now, this bonded indebtedness paid the entire cost of constructing and equipping the road, so that the great sum of \$1,750,000, was paid for a franchise which the company had secured a few years ago from the city "free, gratis, for nothing."

Again, two years ago the Market street railroad system of San Francisco sold for \$17,000,000, the tangible assets being all covered by a bonded indebtedness assumed by the purchaser, so that this immense sum was paid merely for a franchise that had been granted free of cost by the city authorities.

It is a fact that almost all American cities are in the habit of giving away, for nothing, or next to nothing, property and privileges that later become immensely valuable. In the early days the pueblo of Los Angeles owned all the property within the city limits, except the comparatively small area that had been granted to those who wished to cultivate the ground, or build residences, or business structures. Since then everything has been frittered away for a trifling amount—a few dollars, or even a few cents an acre—except the land included in the parks, and a few small pieces of little value, that are leased at a nominal rental. Just suppose that the city had held on to this land, and had leased it for a term of years. If that had been done, Los Angeles might today not be entirely free from city taxation, but might be able to create a magnificent system of parks and boulevards, to build a fine public library, and to do many other things which are now difficult, owing to lack of space.

The warfare which has been waged against the Chief of Police in certain quarters is dastardly and contemptible beyond expression. It is worse than that, for it is criminal, in a moral sense. If not from a legal standpoint, it has greatly encouraged crime in Los Angeles, and has increased the difficulty of apprehending and punishing criminals. The question now is, shall these dastardly, malicious and perfidious assaults upon a courageous and efficient officer be allowed to drive that officer out of office? We shall see.

If, after an investigation where there is practically nothing to investigate, the Board of Police Commissioners shall vote to remove Chief Elton, they will be hard put to it to give a plausible reason for their action. The true reason, if it were given, would be about like this:

"Chief of Police Charles Elton—removed because he raided a poker joint, and because the opponents of law and order desired a greater license for lawlessness, because they wanted an 'open town.'"

In order that no more ships may be landed ashore at Ocean Park it is suggested that windows on the seaward side of cottages at that delightful resort be boarded up.

With such experiences before us we

should insist that a fair price be paid for such privileges as we have still to grant. As the Municipal League says, a bona fide competition into the sale of these franchises. It is, therefore, of great importance that the Council should insist upon securing to the city a fair equivalent for such privileges. In doing this, it is not by any means necessary to ignore the enterprise of men who are making improvements and building up the city, or to throw unreasonable obstacles in their path. It is simply a plain business proposition that what is worth having is worth paying for. If a street railroad franchise is worth a million and three-quarters to a purchaser, within a few years, it ought to be worth at least 20 per cent. of that amount to the city when it is granted.

## INDIVIDUAL CONTRACT RIGHTS.

John Mitchell, president of the anthracite miners' union, has declared that "trade-unionism stands unalterably opposed to the individual contract" (as between employers and employees), and he looks forward to the millennial time when "this principle" shall be "firmly and fully established." Mitchell further expresses himself as in favor of the absolute and complete prohibition of contracts between employers and individual workmen, and declares in effect that trade-unionism is founded upon this "principle."

If it be true that trade-unionism is founded upon the "principle" of the prohibition of private contract, then it is true that trade-unionism is doomed to failure and ultimate extinction.

The right of private or individual undertaking to establish such an institution somewhere in Southern California is one of the most noted health resorts of the world, attracting people from all over the country, and from abroad, there is not here one thoroughly first-class, up-to-date sanatorium, such as the world-wide institution at Battle Creek, Mich., and its branches, which are scattered all over the world, the nearest to us being at St. Helena, in Napa county. There are also many excellent institutions of this kind scattered through the Atlantic Coast States, where the climatic conditions do not begin to compare with ours.

It should certainly be a profitable undertaking to establish such an institution somewhere in Southern California. It should have capacious grounds, where plenty of fresh fruit and vegetables could be raised, also pure milk and fresh eggs. Some time ago the Battle Creek people sent a delegation down here to look after a site, but their chief object appeared to be to secure a big cash subsidy, rather than to select the best location.

Why do not some enterprising Southern Californians, who are interested in hygiene, and have some means, organize a company to build a first-class sanatorium? There are some excellent small institutions of the kind, but most of them are intended primarily for the treatment of consumption. There are also mineral springs, where good results are attained. What is needed is a large institution, where the patient may have the benefit of hygienic dietary, with absolutely pure food, all forms of baths, including sun baths, massage and the choice of suggestive and other aids to nature in throwing off diseased conditions. It is essential that the grounds of such an institution should be amply provided with shade trees, and provision should be made for sleeping in the open air.

The right of the individual man to enter into an individual contract for the disposition of his individual labor, or the product thereof, is as inherent, as inalienable, as the right to breathe.

John Mitchell and his organization—and all other organizations of like kind—are but trivial incidents in the progress of the human race. They are here today, and they will be gone tomorrow. "Men die; principles never."

Men are ephemeral; principles are eternal—immutable.

## THE CITY IN BRIEF.

## NEWS AND BUSINESS.

## Society Officers.

St. Vincent de Young Ladies' Society has elected Miss Elizabeth McCarry, president; Miss McCarry, vice-president; Miss Byrne, secretary; Miss Margaret Mo- lony, treasurer.

## Lily Within Lily.

A floral curiosity has been on exhibition in the Chamber of Commerce in the form of a double calla lily. From the center of the flower spreads a second, perfectly in detail.

## For Army Nurses.

Colonel W. R. C. will give a reception in honor of army nurses at the hall on No. 125 West Fifth street from 2 to 5 o'clock tomorrow afternoon. A general invitation has been extended to friends interested.

## New Mail Carrier.

Seventeen small carriers were assigned to permanent duty yesterday by the superintendent of the city delivery system of the local postoffice. Some weeks will be occupied by the local department to redistribute the city before the winter rush season sets in.

## Druggists, Take Warning!

The State Board of Pharmacy will convene in this city on October 25th, giving its session at the Medical College with a morning meeting. H. J. Finger, a member of the board says that all pharmacists must show their credentials at this session as after it all no regularly licensed will be vigorously prosecuted.

## General Teachers' Meeting.

A general teachers' meeting of instructors from the city schools will be held in the High School building tomorrow. Numerous exhibits, including lectures and displays, have been programmed. Concluding the forenoon's session Mrs. Emma M. Greenleaf will speak on "The Education of the Child."

## Glimpses of the Unknown Land.

The Dalton Center Improvement Association will meet in Hamilton Methodist Church, East Eighteenth and Naomi streets, this evening. Several propositions for the general advancement of that community will be discussed, and a general invitation is extended to citizens of that neighborhood to attend the meeting.

## Death of Missionary.

Word has just been received of the death of Mr. R. Cunningham, after a long illness, at the mission post of the South China Mission Band, in China. Mr. Cunningham was a student nearly all of last year at the Pacific Bible School, and after his graduation went with the reinforcements for the mission band early in the summer.

## Harbor Committees.

The Chamber of Commerce has requested the Free Harbor League to appoint a committee of three to cooperate with the chamber's special San Pedro Harbor Committee in the application at San Pedro. The latter committee will go to San Pedro Tuesday to look over the waterfront, and to appear before the Board of Trustees of the town in the evening.

## Debating League.

The High School Debating League of Southern California will hold a special meeting Saturday afternoon at 1 o'clock, in the County Superintendent's office at the Courthouse, to consider proposed amendment to the constitution and bylaws, and to transact other business. The league is now composed of the high schools of Los Angeles, Pasadena, Whittier, Monteville, Covina, Glendale, Bellanca, San Fernando, Santa Monica, El Monte, Compton, Downey, Riverside, San Bernardino and Pomona.

## Universalists Want Aid.

A petition has been sent by the Universalists of Los Angeles to their general conference, which meets in Washington next month, asking for the continuance of the minimum appropriation for the work in Los Angeles. By this move it is understood that the resignation of Rev. Frank G. Jenkins will not be accepted. The Universalist Church appointed a committee composed of L. A. Phillips, George Barr and Robert Mitchell, to meet with a committee from the Unitarian Church, with the idea of arranging for both congregations to co-operate in the church of the Unity.

## BREVITIES.

Real estate advertisers and others: Hereafter all real estate and other classified "want" advertisements for Sunday insertion must be in The Times not later than 11 o'clock Saturday night in order to be properly classified. All small advertisements received after this hour will be printed under the heading "Classified Ads. to Classify." Special request is made of those telephoning "Liners" to do so before 10 p.m. each night.

On and after October 1st, school tickets good on the Los Angeles Railway will be sold at northeast corner of Sixth and Main streets instead of at the former location.

Cast-off clothing solicited by Bethelmen Institutional Church, Tel. John 261. Wagon will call.

Reduced rates household goods and from East. Belkin Van Co., 214 S. Broadway. Parts remodeled. D. Bonof, 212 S. Broadway.

There are undelivered telegrams at the office of the Western Union Telegraph Company, 100 S. Spring street, to the Postal Telegraph, Cable Company, 220 South Spring street, for Guy Dennis.

There are undelivered telegrams at the office of the Western Union Telegraph Company, 100 S. Spring street, to the Postal Telegraph, Cable Company, 220 South Spring street, for Guy Dennis.

YESTERDAY'S HOTEL ARRIVALS.

ANGELUS-A. G. Langenberger, San Francisco; Wm. W. McLean, Pittsburgh; Mr. and Mrs. Cook, Louisville; J. Moore, wife and son, Pittsburgh; Mary E. McLean, wife and son, Louisville; William Hague, Modern, S. D.; J. M. Marsh and wife, Jersey City; James J. Donahue, Robert F. Murphy, wife, San Francisco; Mrs. Redder, Miss Weston, San Francisco; Mrs. Velma, Miss Weston, San Francisco; Mrs. Redder, Wood and wife, San Francisco; H. H. Wood, Lake; S. D. Neimark, Oakland; M. Danielson, New York; Mrs. C. A. C. Nash, Mexico; F. D. Miller, D. M. Marshall, New Orleans; H. W. Trimble, Coronado, N. M.; Mrs. Weston, San Francisco; Mrs. F. R. **Your Credit Is Good**

In the business world credit plays a more important part than cash. We have perfected a credit system that is extended to individuals. We have your house completely and you may pay in small sums to suit your convenience. Many people feel a little embarrassed in asking for credit terms on the part of their furniture, but we will be glad to give you credit. We not only will be pleased to supply you with furniture, carpets and draperies you may need, but we will also be glad to give you suggestions as to the furnishing of your home, and just how to secure the most comfort and good appearance with the least expenditure.

## CAR COMPANIES TO SPRINKLE?

May be Compelled to Water  
City Trackage.

Would Save Public Twenty  
Thousand a Year.

Legal Opinion Expected Monday  
from the City Attorney.  
Ordinance Holds.

The time may not be far off when the street railway companies will be compelled to water their tracks, or provide other means to lay the dust. A afoot. Thousands of dollars will be saved the city each year if the plan can be carried out.

"To water that part of the city which is occupied and used by their tracks, and immediately covered by their franchise, is an altogether different thing," said Mr. Mathews, attorney for the city. "The court held no ordinance requiring street car companies to sprinkle from tank cars, from the streets upon which cars were operated." The court says:

"It cannot be reasonably contended that, because a corporation or private person has an absolute franchise of operating lines of electric cars on the streets of the city, such franchise carries with it the right to so use and operate their cars as to become detrimental to the public health of the city, and thereby subject the city to the power of the City Council has not the power to regulate the same by means of reasonable and appropriate ordinances."

"After summing up the evidence, which showed conditions like those prevailing in Los Angeles, the court says:

"We think it reasonably clear that the operation of the street electric cars is the principal cause of the dust which is complained of, and that it is shown to be a nuisance, injurious to the public health and detrimental to the comfort and convenience of the public."

In conclusion the Supreme Court of Louisiana decides that it is entirely competent for a city, in the exercise of its police powers, to compel a street railway company to water its tracks.

The case was decided in 1898. Similar decisions have been rendered in Pennsylvania and other States.

Should the Los Angeles City Council pass such an ordinance, the companies would be compelled to pay to the city to water the tracks, and not only would the cost of sprinkling that portion of the streets be saved, but a considerable revenue would be derived from the sale of water so used.

From the foregoing fact some idea may be gained of the importance of

company set up a very elaborate defense, even going so far as to allege that the ordinance was in violation of the Constitution of the United States. All of the objections were overruled.

In deciding the case the court considered chiefly whether such an ordinance was unreasonable and whether it was an attempt to place a public burden upon private persons. As far as related to the consideration of the case the court held no ordinance requiring street car companies to sprinkle from tank cars, from the streets upon which cars were operated." The court says:

"To water that part of the city which is occupied and used by their tracks, and immediately covered by their franchise, is an altogether different thing," said Mr. Mathews, attorney for the city. "The court held no ordinance requiring street car companies to sprinkle from tank cars, from the streets upon which cars were operated." The court says:

## THREE-STORY THUNDERER.

Enormous World's Fair  
Organ Assuming Shape.

Greatest Musical Instrument on  
Earth Building Here.

Two Large Men Could Crowd  
Side by Side Through  
Low-tone Pipes.

Los Angeles' greatest pipe organ on  
earth, whose thunderous melody will  
open the St. Louis Exposition, is as-

sembled a few minutes with the headless

serpent. He proceeded to peel off the

skin of the snake.

"The snake

bears an especially important in local

circles owing to the development of

the sardine industry in these waters.

The Alpha, of the California Fish Com-

pany, has been making two trips a

week in search of the elusive game, but

so far this season has met with the

poorest of fisherman's luck, and the

company, instead of turning out 15,000

cases, as it is prepared to do, will not

ship a carload of sardines, which is

2000 cases, unless a Galilean miracle

is forthcoming.

"We are now in our ninth year,"

said A. P. Haifield, vice-president of

the company, "and we have never

known a year for sardines. It

is of year all over the world.

Southern California has great possi-

bilities in the development of the fish-

packing industry, and the only lottery

in connection with the business is to

purchase stocks of the fish, such as

salmon. There will be practically no

output of sardines from France this

year at all, and as the packing com-

panies depend upon the fisherman for

their supply over there, it is probable

that such a year will be a bad one.

Mr. Blank, who has been called upon

to catch these fisherman over

the season and keep them from

starving. Many of the companies have

advanced large sums of money to the

fishermen on their boats, and as

as they have not had these com-

panies are badly out of pocket.

"The waters from this vicinity

to Santa Barbara yield the same sardines

which is taken in the Baja Calif-

ornia, and this is the only place in

the United States where this variety

is found. What sardines we have been

able to corral in the purse net have

been too large to pack in the

most desirable size, which will run from

twelve to fourteen to a box, is not to

be found. No man knows why, and

all kinds of reasons are given for the

shortage. Last year when the sardines

were scarce in French waters, it

was explained that seismic distur-

bances were the cause, but that expla-

nition does not fit this year.

"There should be no danger to the

periphery of the San Joaquin River

in Southern California, for the fish

spawn in favorable seasons as high

as 30,000 eggs. We have had better

luck with mackerel, but they are also

scarce. In the short time we have

had to pay attention to the packing of the lobsters, or crabs,

and we are packing what we call the

tenderloin of deep-sea fish. The latter

is new, being originated by us,

and there is none of the type in the

## THE PUBLIC SERVICE.

### SUMMARY OF THE DAY.

An examination of the petitions filed yesterday for the advertisement of the franchise along Los Angeles street from Sixth to Ninth street, reveals a strong showing that will be made before the Board of Public Works today.

Dr. E. L. Leonard was appointed City Bacteriologist by the Board of Health yesterday.

The estate of Dan Grant, who disappeared under the strangest circumstances, was probated yesterday in Judge Wilbur's court.

Mrs. De Vore, who thought she was a guest of Mrs. Seems, will have to pay her board and lose her trunk.

The Record poker players' demurser has been overruled and tomorrow their cases will be set for trial.

### AT THE CITY HALL.

#### STRONG SHOWING OF FRANCHISE PETITIONS.

#### SALE OF LOS ANGELES-STREET ROUTE ASSENTED TO.

Board of Public Works Will Consider Application of Los Angeles and Glendale Railway Company for a franchise on Los Angeles street from Sixth to Ninth street and on Ninth street from Los Angeles to San Pedro street. The board spent considerable time yesterday in inspecting public improvements now under way and in investigating pending petitions. It is very probable that the fate of the franchises has been settled, although nothing definite could be learned last night.

A close inspection of the petitions filed with the board late Wednesday afternoon shows that a considerable number of heavy property owners and influential citizens who have always opposed a street railway on Los Angeles street north of Third street, do not object to the sale of Sixth street. The petition is brief and worded as follows:

"We, the undersigned, doing business on Los Angeles street, have no objection to the City Council selling a franchise on Los Angeles street from Sixth to ninth street for electric-railway purposes."

This petition is signed by the following-named persons and firms: E. P. Boshyashoff, No. 125 North Los Angeles street; Newell-Matthews Company, No. 200 North Los Angeles street; Western Commercial Company, No. 209 North Los Angeles street; Union Hardware and Metal Company, No. 210 North Los Angeles street; Union Glass Company, No. 200 North Los Angeles street; A. H. Beach Company, No. 153 North Los Angeles street; L. M. Davenport Company, No. 161 North Los Angeles street; M. A. Newman Co., No. 111 North Los Angeles street; Klein-Norton Company, No. 131 North Los Angeles street; W. P. Fuller & Co., No. 140 North Los Angeles street; Baker & Mantooth, No. 125 North Los Angeles street; W. W. Montague & Co., No. 122 North Los Angeles street; Model Gas Engine Company, Third and Los Angeles streets; Charles Fornam, No. 234 South Los Angeles street; Simon Levy, No. 423 South Los Angeles street; Fairbanks-Morse Company, No. 134 South Los Angeles street; William H. Hooper, No. 212 South Los Angeles street; R. H. Whitten, No. 221 South Los Angeles street; Statson-Preston Company, No. 227 South Los Angeles street; Pacific and Power Company, No. 234 South Los Angeles street; S. Wright & Co., No. 236 South Los Angeles street; Manufacturers Agents' Association, No. 293 South Los Angeles street; Elgin Electric Company, No. 262 South Los Angeles street; F. J. Peacock Produce Company, No. 212 South Los Angeles street; Simon Levy Company, No. 225 South Los Angeles street; Southern California Supply Company, No. 272 South Los Angeles street; Commercial Printing House, No. 338 South Los Angeles street; Martin & Johnson, No. 242 South Los Angeles street.

Property owners on Los Angeles street between Sixth and Ninth streets, owning a total frontage of 220 feet, have also petitioned asking that the franchise be advertised for sale.

The signers of this petition, with the frontage owned by each, follows: A. Jacobson, 175 feet; C. H. String, 50 feet; D. H. Morris, 175 feet; M. Hammond, 112 feet; Kerkhoff Company, 216.45 feet; E. P. Bryan, 17 feet; Western Real Estate and Investment Company, 17 feet; T. G. Bell, 22 feet; Jacobson, 100 feet; Fanta, 40 feet; M. J. Nugent, 50 feet; Mrs. M. Schilling, 30 feet; Henderson-Hayward, H. E. Huntington, president, 247 feet; Huntington Land and Improvement Company, H. E. Huntington, president, 180 feet; unknown, 100 feet; with illegible signature, 100 feet.

### BUSY 'UNCLE BILLY.'

**STRENUOUS CASH MAN.** Uncle "Billy" Workman, who presides over the city's strong box, wiped the perspiration from his brow last night, caught up on his breath and gasped: "My God, it is! It was one of the hottest days in the history of the office. The sums paid out in salaries and otherwise aggregated over \$60,000. An equally busy time of it is anticipated for today."

### Lady Bacteriologist.

Miss E. L. Leonard, a graduate of the medical department of the University of Southern California, and subsequently a student at Johns Hopkins University, was appointed City Bacteriologist by the Board of Health yesterday. Dr. Leonard, as the young lady prefers to be known, has gained considerable experience in the laboratory as an assistant to Dr. Stanley P. Black, who has been employed by the city to guard against bubonic plague and other contagious diseases at various times. Dr. Leonard is strong and virile. The members of the Health Board stoutly declare that they cannot be accused of doing politics this time, as it is evident that the medical staff has no vote. Dr. Leonard will receive \$5 a month from the city, in accordance with an order passed by the Council at the last session. She will not be expected to de-

vote her entire time to the work, however. The bacteriologist will be expected to make analyses of water and milk and typhoid fever, diphtheria and tubercular cultures.

### AT THE CITY HOUSE.

#### DYING MAN VANISHED. SEARCH GIVEN UP.

#### REMARKABLE MYSTERY ENVELOPS A SECTION HAND.

Was Writing Farewell Message When Death Stopped Him—His Room Was Found Empty and His Body Never Was Found.

Policelets.

Evidently dying, Daniel Grant wrote, "awful pain around my heart." This note, broken off as though by sudden death, was found in his vacant room. The man had vanished. It was as though he had fled and left no corpse behind.

Yesterday his people gave up the long search of four years for him. They went into court and Judge Wilbur of the Superior Court ruled that he was dead.

It showed that he had been stopped by death while writing in his room. The unfinished letter was there; his body was not.

The evidence introduced yesterday only served to make the mystery deeper and more strange.

Grant was a railroad section hand.

### COURTHOUSE NOTES.

#### BREVITIES MISCELLANEOUS.

**DAMAGE SUIT.** William Cook sued the Los Angeles Railroad Company for damages yesterday because of the death of his son, Wm. Cook, who was run over and killed last May by a trolley car at Central avenue and Forty-fifth street. Cook states in the complaint that he and his wife are deaf and dumb, and that this son, who was very bright, was their sole means of talking and hearing.

**INCORPORATIONS.** Security Trust Company; capital stock, \$300,000; subscriber, B. M. Blayne, W. E. Stevens, C. L. Hartwell, E. O. Miller, C. E. Huntington.

Prudential Investment Company; capital stock, \$200,000; subscriber, \$200; director, A. F. Pike, A. C. Parsons, E. B. Thomas, C. E. F. Picknell, A. J. Crookshank, R. D. Wade.

### ACCIDENTAL COLLEGE NOTES.

Manager, Dan S. Hammack is having the football put into good condition. Cal. Santa got the men out yesterday afternoon for the first line-up practice.

The reception given Wednesday afternoon to the young women students and guests at the home of Dr. H. McCullough was a great success. Nearly all the young women registered were present and the decorations, simple but effective, and the refreshments, designed to make the affair a great improvement over what has been done former years, when held at the dormitory rooms. The officers of the W. A. Misses Gordon, Frances Gordon, Jessie Pope, Genieve Cumberland, Dickey, Quinby and Anna McKee, with the Misses Mae and Estelle McClung, were present. Light refreshments were served.

Freshmen versus sophomore contest in wit and knowledge was kept the man about the place just before his disappearance. He knew him well enough. He did not see him leave the place; neither did any of his lodgers.

Watson knew nothing more of the mystery than that except that he had written to his brother in Norway.

The will was in the form of letter to Grant's brother, who lives in Norway, as follows: "Mr. John Grant, Dear Bro, I am very weak. Just now, if you can't help me, send me \$200 Dollars to sister Bella and \$500 to sister Mary and the Balance to my Bro John Grant take money in Banks in this city and building and enter it in my name. Your Bro John Grant."

"Goodbye to all."

On a separate piece of paper were the words scrawled, "notice—Notify my Bro John Grant at Norwalk Calif." The last piece of paper said, as quoted above, "awful pain around the heart." He did not see him leave the place; neither did any of his lodgers.

FRIDAY, OCTOBER 2, 1903.

OCTOBER 2, 1903.

EARL ROGERS  
ON TAMMANY.Tells About New York's  
Political Master.Has Grown Too Wise to Take  
"Dirty Money."Passing of Boss Tweed and Days  
of Open 'Bribery—Reign  
of the "Tip."Earl Rogers, Esq., addressed the Iron-  
quoit Club last night on the subject.  
"Tammany Hall." Mixing with a fund of  
accurate information a play of humor,  
bits of fetching description of life on the Bowery, East Side scenes,  
political and social, Mr. Rogers held  
and delighted his audience for more  
than an hour.

He said in part:

"Tammany Hall is the acme of po-  
litical organization. It is the greatest  
thing in the world, politically. There  
never has been and there never will be  
an' thing like it. Because there never  
will be conditions in any other city  
than New York or in any other age  
than the present which will be favor-  
able to the growth and perpetuity of  
such an organization."Tammany really consists of two  
separate and distinct bodies, the Tam-  
many Society, which was organized  
about three weeks after Washington's  
first inauguration; and the Dem-  
ocratic-Republican party, or, in other  
words, Tammany Hall. The Tammany  
Society was founded as a protest  
against the ideas and directions of the  
Society of the Cincinnati, which was  
an organization of the officers of the  
Revolutionary Army designed to  
perpetuate class distinctions between  
officers and the rank and file after the  
disbanding of the army."At first the Tammany Society went  
into politics only by the course of  
controlling the ideals and projects of the Society of the Cincinnati; but  
Aaron Burr got hold of it, took it into  
politics, and largely through its as-  
sistance New York for Jefferson and  
Forsyth."Gradually the society became more  
and more interested in practical pol-  
itics, and Martin Van Buren used to  
attend to the United States Senate  
and afterward to the Presidency.But in its present form Tammany  
Hall originates with the advent of  
Hon. James J. Keay. Twadd wasthe first leader to realize the pos-  
sibilities of Tammany as a political or-  
ganization, and from a fireman and  
newspaper man grew with Tammany  
until he was the undisputed monarch  
of New York City."These men formed the other organ-  
ization which is known as Tammany  
Hall, but technically called the Democ-  
ratic-Republican party."After describing Tammany's system  
of organization, Mr. Rogers continued:

TAMMANY'S SECRET.

"Tammany Hall maintains its pres-  
tige and holds together its followers  
by being the great employmentagency in the world, and the purveyor  
of social amusement and enjoyment to  
thousands, and further by a system of  
charity and benevolence unequalled  
over the entire fraternal society.The precinct captains and the district  
leaders are the fathers of their people.  
They distribute not only hundreds of  
post offices, but thousands of jobs  
of all kinds, and descriptions to their  
followers. Every contractor on public  
work, practically every street railway  
in fact, every individual or corpora-  
tion, public or private, has its home  
in Tammany Hall, but especially the  
city of New York, it has its home  
from the district leaders of Tammany  
Hall to the persons in harnessment to  
the extent of failure."As I said, Tammany's leaders fur-  
nish the social life for the East Side of  
New York, and for thousands on the  
West Side. Clubhouses are main-  
tained by Tammany in all parts of  
New York, and here the boys gather at  
night, play cards, witness private  
parties, hear a song or two, and talk  
politics. Every policeman, every  
leader pulls off a picnic which is in-  
deed a 'magnificent function.' He hires  
three or four steamers and takes 10,-  
000 or 12,000 persons down to a  
grove up the river. Beer flows like  
water, but no one gets drunk. There is  
more to eat than some armies have in  
a week. And after one of these picnics  
when they had too much beer and ice  
cream, something like 300 kegs of beer,  
fourteen bands and three orchestras,  
and 10,000 people dancing. One of the  
women guests came up to a boy  
while at the picnic, and the youngster  
was promptly named for the pop-  
ular 'blow-out.'

CHARITY AND COERCION.

"Tammany leaders spend thousands  
of dollars in charity every year. It is  
said that the leader of theSixth Assembly District spends  
\$25,000 a year in relieving distress.No widow or orphan goes  
to a Tammany leader in vain."The Tammany man gets most of  
his votes by kindness, in giving a  
vote if necessary. To illustrate: A live-er-stable keeper gets the reform mil-  
cage. Some morning a policeman  
comes along and finds him in his  
garages of the sidewalk; a plumber  
condemns his plumbing; ahefty health officer prescribes a new  
man's pit on his premises, and a  
city veterinarian orders the best horse  
killed for having the glands. That

is all.

Not Negotiable.

"Which do you consider the more  
desirable art, painting or poetry?""Painting," answered Mr. Cumor,  
without a moment's hesitation."I am a painter myself, and my  
hopes of finding a place in the  
world are limited, but there is no  
department of finance, however humble, that provides for the  
hypothecation of poetry."—[Washing-  
ton Star.]livery-stable keeper probably makes  
his peace soon afterward with Tam-  
many, thenceforth is permitted to con-  
duct his business with more ease and  
profit."In the past Tammany undoubtedly  
has had seasons of corruption. Under  
Boss' Tweed the Tammany ad-  
ministrators were really robbers on  
the New York City of millions of  
dollars. And Tweed died in pen-  
itentiary."Today Tammany has changed its  
taste. Tammany's administration of  
city affairs might now be investigated  
by any grand jury, and no great cor-  
ruption be found. Tammany today  
is a voluntary organization, every  
one of whom pays his tithe; by contribu-  
tions, voluntary and otherwise, made  
by the great corporations and inter-  
ests, and assessments levied upon  
those deserving public favors."The question will at once be asked,  
How do men like Croker, Sullivan, and  
the rest of the Tammany folk get rich?  
It all comes down to this: They are in  
one phrase: They are put on the inside of  
every big financial transaction that  
occurs in New York, and anyone can  
guess what that may worth."Tammany remembers a time  
when Tammany was too great and powerful to tolerate any  
political organization. Labor unions  
were forced to Tammany in the same way  
that the religious do. Tammany  
makes no effort to carry their  
favors."Only Civil Service raises its head  
to oppose Tammany's future. But  
Tammany has survived fire, water,  
hurricane, pestilence, and the visita-  
tion of the judgment of the Almighty.  
And it doubtless will survive Civil  
Service."SUMMERLAND MAKES  
GOOD TO THE KIDS.FOURTH WARD YOUNGSTERS PRO-  
FIT BY A FAKE.Councilman's Promise Costs Him Ex-  
penses of Large Expedition to the  
Circus, but Grateful Little Ones Come  
Back With Handsome Token of Ap-  
preciation.You may be a kid and regret it 365  
days of the year, but on circus  
days it's better to be a kid than a  
king. Anyway, this is the joint opinion  
of 147 youngsters who yesterday af-  
ternoon took in the sights and smells of  
the temporary tent city at Agricultural  
Park at the expense of Council-  
man Theodore Summerland of the  
Fourth Ward.An impostor named Seaman blew  
into town last spring, and announced  
that he was advanced agent for the  
American Circus. In this cheerful pose  
he won over the unscrupulous  
citizens, chief among them the  
public eye, Attorney John Mott and  
Councilman Summerland. John  
Seaman, a scoundrel, sold the  
children to most of the kids in his ward,  
and when it transpired that Seaman was  
a fake it was up to the Fourth Ward  
Alderman to make good on the ticketa.  
The mines in question are situated in  
Cornwall and Devonshire, England,  
and are in the hands of two proprietors. They  
are the only mines in the world that  
produce the "ball clay," without which  
the manufacture of earthenware is impos-  
sible. It is shipped in vast  
quantities to the United States, France,  
Germany, in fact, to every country  
where earthenware is made.The mines in question are situated in  
Cornwall and Devonshire, England,  
and are in the hands of two proprietors. They  
are the only mines in the world that  
produce the "ball clay," without which  
the manufacture of earthenware is impos-  
sible. It is shipped in vast  
quantities to the United States, France,  
Germany, in fact, to every country  
where earthenware is made.The American syndicate realized  
that with these mines in their possession  
they could dictate terms to manufac-  
turers and force a reduction in price,  
especially about the Summerland  
front porch before noon. A count of  
noises showed that the pleasure of pro-  
viding transportation, circus tickets  
etc., etc., was not shared by the  
owners of the Elks' front porch.Elks' front porch, the Elks' front porch,  
Summerland's front porch before noon.

John Brown, before starting circus road,

staunchest admirer, on behalf of his  
holiday compatriots, presented Sum-  
merland with a handsome Elks' foot-  
ocket, bearing on the dull gold its  
name side by side with the words "From  
the Circus Kids." In his modest speech  
of thanks, Mr. Brown blushed the color  
of his blood-red waistcoat, smiled at  
the town of immigrants, patted his  
mustache, and stammered: "I am  
so sorry. But for all that, he did well."Assisting Mr. Summerland at his  
home on the circus front porch were  
Mrs. Emily French, Mrs. Julia Cald-  
well, Mrs. E. L. Sewick, Mrs. John  
Ashby, Mrs. Lydia McLaughlin, John  
Ashby, "Capt." R. Pearson, "Lieutenant"  
Franklin French, and "Capt." Frank  
French, and two very genial policemen  
in the persons of Patrolmen Hubbard and  
Walker.At tenth and Figueroa streets, at 12  
o'clock, two special cars of the circus  
line were boarded, and Superintendent  
James G. Knapp added his  
happy company to the crowd in the  
dignified role of "special representative  
of the company." This nearly turned  
the kids heads.The tariff on our exposure to the  
United States is from 30 to 60 per cent.Huge factories with the most up-to-  
date plants are being erected in that  
country.The syndicate has only to  
make protective laws to "ball clay"as regards England and the conti-  
nent in order to give America a monopoly  
in the earthenware trade of the world.Furthermore, inquiry showed that  
Germany has got her claws on a  
great and historic industry that has  
thrived in Staffordshire for a century  
and a half," said a Hanley employee."Americans destined to  
accomplish that purpose," he added."Germany has got her claws on a  
great and historic industry that has  
thrived in Staffordshire for a century  
and a half," said a Hanley employee."Germany has got her claws on a

FRIDAY, OCTOBER 2, 1903.

## Presidents of the City's Leading Women's Clubs.

With the opening of the club season general interest attaches to the ladies who will preside over and guide the destinies of the leading women's organizations.

Of the five first ladies of Los Angeles clubdom whose portraits are presented above, Mrs. Roy Jones of Santa Monica is the only one new to the position of president. She will deliver her open-

#### STRIKING PALA INDIANS GO BACK TO WORK.

#### NEW AGENT'S FUNDS FIX TROUBLE OVER PROMISES.

Lieut.-Col. Dodge succeeds Col. Vodges in Command of Artillery. Purchase of Promising Tournai Deposits.

SPECIAL CORRESPONDENCE OF THE TIMES.

**SAN DIEGO.** October 1.—The Pala Indians who have for two months past been here with promises to do work that the government put before them, have returned to work once more under direction of the new Indian agent, C. J. Shell.

The old district of L. A. Wright of San Jacinto, which extended from Tulare to the Mexican line, has been divided, and while Mr. Wright takes charge of all north of Temecula, Mr. Shell will have charge of all south of there.

The trouble with the Indians was that they were promised too much when the agents were trying to get them to move from the Warner Ranch without causing trouble. They worked during June and were paid for it. Then they worked during July and August and received no pay. When no money was forthcoming for August they decided that they would work no more without the pay in sight. The back bills were remitted, but the new agent's funds, his dismal record of what he work is to have done, and the Indians therefore commenced on Wednesday hauling hay for themselves at the rate of \$1.50 per day.

#### NEW ARTILLERY OFFICER.

Lieut.-Col. R. H. Patterson who succeeds Col. A. W. Vodges in command of the artillery district of San Diego, including the barracks and Fort Rosecrans, arrived yesterday, direct from Fort Warren, Mass., on Boston Harbor, where he has been stationed for several years. He was met at the station by Capt. A. S. Fleming. Col. Hodges left yesterday for his new post. The residence formerly occupied by Col. Hodges was turned over to Col. Patterson and all in readiness for their reception.

In the winter of 1898 a local business man has just returned from Riverside county, where he purchased the famous "Big Pink" "Little Blue" tourneys and marmes, considered one of the most important mineral districts in Southern California. Work is being prosecuted on the 600-foot ledge, which is a veritable mass of quartz. A number of men are employed on the mountain, and Fano says that he will establish an extensive cutting plant in this city, within the next few months.

#### FREAK WINDOW BREAKING.

A mysterious condition of affairs prevails at a house on First street near Elm. For several nights windows have been smashed by invisible missiles, and no trace of the author can be found. Four policemen guarded the house one night, and windows were broken while they were on duty, without the cause of the mystery being discovered. The family is in a state of terror. Chief Thomas thinks the damage is caused by a sort of small bomb thrown by some miscreant.

#### SMUGGLING CHINESE.

Confirmation has been received of the report that a party of thirty Chinese has unlawfully landed in

this country near Oceanide. Deputy Sheriff Kerr has interviewed some fishermen near Oceanide, and they say that they saw a small sloop land the illegally entered celestials last Wednesday, south of San Juan Capistrano.

When asked why they did not notify the authorities at once, they said there was nothing in it—that they had done as they were told, and that it was a secret for their trouble. No trace of the Chinese has, as yet, been found.

**BAY TOWN ITEMS.**

The power yacht Lillian, owned by Mr. Dickinson, arrived yesterday, and will remain during the winter months.

Croner Morgan has not yet returned to the United States, but is expected to hold an inquest over the body of Frank Roberts, recently murdered at that place.

In the somewhat lengthy and interesting suit for possession of the Horton House, owned by U. S. Grant, who has been attempting for long time to have it torn down, Frank Quereau, quoted.

Judge Torrance yesterday decided that Mr. Quereau's lease is good for another year. That is what Mr. Quereau has been trying to accomplish.

Mr. Grant had arranged some months ago for C. W. Robinson, manager of the Hotel Florence, to include the Horton House, also, but the decision of the court alters that arrangement.

Joseph Lugo, alleged wife beater, who had been searched for by the police for twenty-four hours, was captured yesterday by Officer Pringle.

As the officer was riding along Arctic street, he noticed a woman endeavoring to escape from a man who was pursuing her. Hastening to the spot, Pringle was in time to rescue Lugo, who was again about to beat his wife, from carrying out his purpose, and in a moment had the Italian under arrest.

#### Feeding Sheep on Wood.

With the rapid multiplication of great flocks of sheep in the Far West has come the grave question of providing the wool beasts with sufficient protein. Many sheepmen in the semi-mountain regions where there is little or no grass to speak of have partly remedied this difficulty by feeding their sheep on wood.

Now comes to the rescue, but on the young and tender pine shoots which abound in the foothills and approaches of the mountain reserves.

The sheep in the semi-mountain regions, especially of those varieties known as "grade" merinos and coarse wools mixed, are run in flocks or "hands" of 2000 to 3000 head, in charge of a herder, who is assisted by a "camp tender," "rocked," whose business it is to look up range, move camp and "pack" in supplies, including salt for the sheep.

### PROHIBITION DEFEAT AT SANTA ANA.

#### JURY ACQUITS BEER-HAULER OF THE SOCIAL LIQUOR CLUB.

One Stubborn Juror Prevents Return of Verdict for Four Hours—Horse's Neck Broken by Singular Accident. Smelter Man Injured.

SANTA ANA Oct. 1.—After being out four hours and a half, the jury in the case against R. S. Dickerson, charged with transporting beer for the Santa Ana Social Club in violation of the city prohibition ordinance, returned a verdict of "not guilty." The jury had been seated ten to two for acquittal and the second ballot stood eleven to one, the single stubborn juror holding the remainder of the jury for over four hours before the verdict was made unanimous. The case had attracted a wide interest throughout the county.

#### LOCATEES.

Preliminary steps have been taken for opening Bush and Spurgeon streets from their present terminus to Santa Clara avenue.

Reports from the mountain districts east of this city give the rainfall of last Sunday at one inch. The rainfall in the valley was less than a quarter of an inch.

The trial of A. Sanchez of Los Alamitos on a charge of conducting a gambling house there has been set for trial just after Smithwick's court for Tuesday morning.

Papers in the appeal to the people of Los Angeles were filed with the County Clerk today. O'Connell was convicted in the Alameda court of illegally selling intoxicants.

A valuable horse belonging to Marco Ponzio of Ontario was killed on French street today by colliding with a telephone pole. Two horses tied together were being led down the street when the driver of a car drove one of the poles, each attempting to go on a different side of the pole. The rope stopped them with a jerk and broke the neck of one.

A horse jump was the result of the trial of the four Japanese laborers from the Bolan Chica Gun Club yesterday afternoon in Justice Smithwick's court. It was to have been heard in a hearing before the court, but was adjourned to another date.

The jump took flight at the wreck of a light buggy demolished in a runaway last night, when J. Huffman and a friend from Springfield, Mo., were thrown from the rig while riding home. Mr. Huffman sustained a broken arm.

The battery case of Hazard vs. Cole, one of the incidents of the farmers' fight with the Bolan Chica Gun Club, which was to have been heard in the local courts today, has been postponed to October 17.

Mr. W. V. Baker of Westminster celebrated her eighty-first birthday with a family reunion, at her home today.

T. Newland and wife of the peasants, who were bruised from their carriage and badly bruised this morning by the horses taking flight on West Fifth street. The carriage was scattered and one of the annual series injured.

The team took flight at the wreck of a light buggy demolished in a runaway last night, when J. Huffman and a friend from Springfield, Mo., were thrown from the rig while riding home. Mr. Huffman sustained a broken arm.

Since a crust is better than no bread," a small advertisement in The Times brings in more business than no advertisement at all. Telephone your wants to Red 661, and our Redlands Agency will take your ad, and send it to the main office.

#### FULLERTON.

OIL CONCERN COMBINE.

FULLERTON, Oct. 1.—The consolidation of the Puento and Columbia oil companies throws a dozen expert oil-well men at Puento out of employment, though most of them can soon find other work. John Wellin has been promoted as local superintendent and Charles Farren appointed head driller. James McMillen will remain as a driller. Frank Selby, manager of the Puento as well as George John Deltis, blacksmith; George Scodell, machinist, and all pumpers are retained, including John McEachran, Harry T. Harkness, and others.

Mr. Mixer, who has a contract to drill a well at Acton, James Fife, who quit before the shake-up, has gone to New Mexico to investigate some oil claims.

#### LOCAL ITEMS.

A letter has been received from Jacob Stern, who with his family and two sons, is visiting the country brothers' father and mother in Germany, in which he states that his one-year-old daughter had a leg broken near the thigh by the overturning of her carriage and that the accident may delay their return to the country.

J. E. Puentes is a favorite in the San Geronimo mountains, better known as Reed's Cafon, has been sold to Mr. C. W. Tipton.

Mr. O. W. Shidow of Union, Or., has come to the L. T. Harper residence and three-acre tract facing on South Central avenue.

a result of the rain and fog of this season is .47 of an inch.

Charles E. Wilber has instituted a suit for divorce against Miss Susie D. Sinton of Elsinore has commenced action for divorce against James Sinton.

James E. Wilber, who was fined \$10 for riding his bicycle on the sidewalk, proposes to fight the case and knock out the city ordinance if he can.

J. R. Johnston of Los Angeles is in trial on a charge of perjury.

Mr. and Mrs. F. E. Abbott and daughter and Mrs. A. R. Johnson have returned from an extended eastern trip.

Hariel H. Drake of Beattie, Kan., and Miss Bertha E. Hibbard of this city were united in marriage Tuesday evening at the home of the bride's parents, Rev. and Mrs. L. H. Hibbard.

Rev. Benjamin S. Haywood officiating. Mr. and Mrs. C. B. Brinkerhoff and Judge and Mrs. A. E. Abbott have returned from an enjoyable trip to the Yosemite.

A largely attended progressive whist party was given Tuesday night at Odd Fellows' Hall under the auspices of the Odd Fellows and Rebekahs.

O. H. Hicks left today for the East on a business trip. He was accompanied by his son, J. M. Hicks, and Mrs. Hicks, who will visit relatives there.

W. R. Forman has purchased O. C. Darling's ten-acre orange grove on Indianapolis avenue for \$10,000.

"A crust is better than no bread," a small advertisement in The Times brings in more business than no advertisement at all. Telephone your wants to Red 661, and our Redlands Agency will take your ad, and send it to the main office.

#### SAN JACINTO.

INTRICATE WATER PROBLEM.

SAN JACINTO, Oct. 1.—Fred Hards of this town has filed claims to 6000 inches of free flowing water which he collects from the following sources: Strawberry Creek and 1500 inches each from the North and South Forks of the San Jacinto River. This unlooked-for appropriation of water from these sources promises to excite some very painful lawsuits. The water used by water companies and individuals for irrigation and stock watering.

The Fairview Land and Water Company, which supplies water for the irrigation of the valley, stands at the head of this valley. Two horses tied together were being led down the street when the driver of a car drove one of the police, each attempting to go on a different side of the pole. The rope stopped them with a jerk and broke the neck of one.

A horse jump was the result of the trial of the four Japanese laborers from the Bolan Chica Gun Club yesterday afternoon in Justice Smithwick's court. It was to have been heard in a hearing before the court, but was adjourned to another date.

The team took flight at the wreck of a light buggy demolished in a runaway last night, when J. Huffman and a friend from Springfield, Mo., were thrown from the rig while riding home. Mr. Huffman sustained a broken arm.

Since a crust is better than no bread," a small advertisement in The Times brings in more business than no advertisement at all. Telephone your wants to Red 661, and our Redlands Agency will take your ad, and send it to the main office.

#### UPLAND.

DEATH OF H. K. DURHAM.

UPLAND, Oct. 1.—H. K. Durham died suddenly at the Magnolia Villa early this morning of heart failure. Mr. and Mrs. Durham, accompanied by their granddaughter, Miss Bessie Eddy, came to Upland about six months ago from Springfield, Mo., and had since been here. Mr. Durham was past 90 years of age and was for many years a resident of Kankakee, Ill., to which place the body will be shipped. A family consisting of wife, five daughters and one son, survive him.

Robert J. Dunn, who has been confined to his bed by sickness for several weeks past, is reported to be out of danger.

Abbie Clark is visiting friends in Los Angeles for several days.

Chief J. E. Brown of the fire department returned from Olympia, Wash., where he attended the convention of the International Association of Firemen.

"If you want a thing well done, do it yourself," is an old-time motto, but it is latest in The Times. The man who comes to advertise his services wants to Red 103, and our Redlands Agency will take your ad, and send it to the main office.

## Los Angeles County: Yesterday's Events and Incidents in its Cities, Towns and Villages

(NEWS REPORTS FROM TIMES CORRESPONDENTS.)

PASADENA OFFICIALS  
PLAN A HOSPITALPLACE OF DETENTION SCHEMED  
FOR CONTAGIOUS CASES.

Banquet at Hotel Maryland Settles Long-discussed Question — Vineyardists Steel Match on Wine Company. Capt. Collins Resigns from Co. I.

PASADENA. Office of The Times, No. 9 South Raymond avenue, Oct. 2.—City officials find that they can accomplish much more business at banquets than they can in the seclusion of their stately offices. It is becoming quite the thing for our municipal bodies to assemble at Hotel Maryland for the tackling of difficult municipal problems. The practice has proved that it's easier to get on a full stomach than an empty one.

The Board of Health, consisting of Dr. F. F. Rowland, D. B. Van Slyck, H. E. Macomber and J. J. Bleeker, and Secretary H. H. Klamann of the Hospital Association, the Mayor, W. H. Vedder, and representatives of the local press, gathered round the festal board. After several rounds of talk had been accomplished, during which the victuals were routed, the time was turned upon the matter of establishing a detention hospital to be erected on the grounds. This was under discussion for a long time. Last night's meeting settled it.

All that remains to be done now is to present the idea to the City Council. The preliminary work has been done by the physicians, then stone masons, carpenters and plasterers. The hospital is not for the accommodation of smallpox patients who will be sent to the State Hospital, but for the general rounds of the present hospital, and this will likely be the site, though there is some opposition to the idea on the part of residents of the neighborhood. The Board of Health is to meet again Friday.

Each year there are cases of scarlet fever and diphtheria in the hotels. The management of the hoteliers do not like it. Neither do the guests, especially those who have children. But hitherto the victims have had to go elsewhere for them to go. The detection hospital will also provide school children who cannot have proper care at home. Last year scarlet fever made great inroads upon the school children. It was epidemic. The Board of Health will endeavor to prevent the disease from spreading this season.

## HAPPY VINEYARDISTS.

Rain isn't the only thing that makes farmers and ranchers jubilant. The grape growers of Lamanda Park and neighborhood rejoice in this thoroughly. And so do they do. But the Sierra Madre Vintage Company is just as happy. It has to admit that the growers care a pretty march on the institution.

The Board of Education has awarded the contract for desks for the new High School building to the Andrews Company for \$12,000. Mr. Webb & Co. of Los Angeles, and for door shades to Baker Bros., of this city.

"Ask and ye shall receive," if you put your "Liner" in The Times. Telephone your wants to Black Hill, and our Pomona Agency will take your ad and send it to the main office.

## CATALINA ISLAND.

## EXPOSITION TO SANTA CRUZ.

AVALON, Oct. 1.—The camping party which went up to spend two weeks on Santa Cruz Island, returned last evening. The trip was made with the yacht Albatross, under charge of Capt. Matthewson.

Much of the time was spent in visiting the various islands, two days were passed at Santa Barbara, and stopped at Walker's Harbor, and on their visits were received with open arms.

All are loud in their praise of Santa Cruz from a scenic point of view, the hills and cañons, with purring streams, numerous caves and the beautiful pine forests, make it a paradise for the campers. The party comprised Mr. and Mrs. C. B. Parker, Misses Kamp, Gleason, Roher, Phelan, Nelson, Ferrier, Lyons, Laughlin, Franklin, Hodges, Mr. West, Messrs. Allen, Farmsworth, Tobin, Reyes, Ormsby, Crozer and Capt. Mathewson.

## ILEE ITEMS.

George H. Pitney and family left yesterday for their home in Los Angeles, after three months on the island. Mr. Pitney in his rowboat put in eighty-one days fishing, usually from three to five hours each day. Occasionally he was accompanied by his wife or daughter, Miss Grace and Eleanor. He usually fished in the waters off the coast of the town, the water being extremely rough.

Capt. Collins hastened his resignation so that his first Lieutenant might receive the higher honor, which tempts him to remain in the service.

That made the growers jubilant, but within the past month they have come to the conclusion that the grape crop is so large that prices have dropped "way down." The Vintage company manager admits that they could have shipped the grapes for \$10 per ton, and paying only about \$2 per ton shipment themselves the difference between \$10 and \$15 per ton and \$10 per ton, he said, no money when it is considered that the "liner" uses 2000 tons this year. In other words, the Sierra Madre Vintage Company loses about \$15,000 by accepting the offer of the association, and the growers gain that amount, because they paid.

## CAPT. COLLINS RESIGNS.

Capt. P. A. Collins, commander of Co. I Seventh Regiment, since 1892, resigned, because he finds the work too much and arduous for him. It is said that Lieut. L. D. Collins, the son of Capt. Collins, had also suggested his retirement.

Capt. Collins hastened his resignation so that his first Lieutenant might receive the higher honor, which tempts him to remain in the service.

## LETTER-WRITING JAPS.

The business of the Lordsburg post office during the past month has been in a state of transition. The town, while the new post office is being built, has been occupied by a temporary office which has helped to augment this.

The office has been receiving substantial help from 150 Japs who worked on the railroad here for two days. These men were great correspondents, and many of them in Japan, and bought on an average 100 5-cent stamps every day.

## SAN DIMAS MEETING.

A town meeting in the New England style has been called to meet at the Hotel Association packing-house at 10 a.m. Saturday next, to discuss plans for the betterment of the town, such as uniformity in selection of shade trees, and other street improvements.

## FERNANDO.

ROSEATE OLIVE OUTLOOK.

FERNANDO, Oct. 1.—The olive crop now maturing in the San Fernando valley is probably the best that has ever been harvested here, and by more systematic handling than ever before, will probably bring better returns than usual.

Two years ago, when the crop was very large, the growers were not prepared either for curing or selling the crop, consequently a large proportion of the fruit was sold at comparatively low prices, but this year with the extensive preparation that is being made, the demand should be met without trouble.

There is no fruit crop which can be grown with so little expense as olives, and if handled carefully they give good results. Last year the growers realized 10 cents per pound for their olives after paying expenses of curing and marketing.

The Los Angeles Olive Growers' Association of Valley cities, including Fernando, has been established.

Two well-known citizens, H. N. Van Nuys and George G. Benton, were called upon to do some ditch work on North Raymond avenue, and the two women, who had undertaken into the excavations.

There was a woman at the bottom of the ditch, and her father two women, who had undertaken into the excavations.

The members of the First Baptist Church met Wednesday evening in an unusual way. The total membership was shown to be 167, not far off of 150, which were selected and delegates chosen to the Los Angeles Baptist Association, which meets at Azusa October 6 to 10.

The trial of N. H. Mitchell, charged

with illegally selling liquor, has been set for October 2. Yesterday a continuance was asked for and denied.

Laborers in the employ of the Consolidated Gas Company to the number of 100 had quit because the company will not raise their wages 25 cents an hour. The company says there's no strike. The men wouldn't work for what they were getting, and quit.

H. M. Furlong purchased of George F. Simon the southeast corner of Euclid avenue and Colorado street, 20x15 feet, and also a lot adjoining, with a house on it, for \$10,000. The house, which is owned by M. E. Wood, Furlong immediately resold the property to Gus Bauer and Victor Marsh at an advanced price.

The residence is a two-story, with a three-story building with stores on the ground floor and offices and apartments upstairs.

Selling is going to close out by November 1. Price, \$10,000.

Pictures framed at Wadsworth's.

Go to Glasscock's for pictures framing.

Wanted—Paper carriers. Times office, Pasadena.

To let—2 large rooms, first floor, furnished for housekeepers. 96 N. Raymond avenue, Pasadena.

Henry J. Kramer will form a juvenile advance dancing class Friday, October 10, at 7:45. Juvenile beginners Saturday morning, October 11, at 10; Bick Hall. References required.

"Sign on" is the ratio of return to ads. in The Times. Telephone your "wants" to Red 4541, and our Pasadena Agency will take your ad. and send it to the main office.

KILLED BY MACHINERY.

INCIDENT OF THE WATERFRONT  
FIGHT TOLD IN COURT.

Before San Pedro Tribunal Gaffey Withdraws Plea of Guilty and Case Against Him is Dismissed—Kelly Coolly Accepts Punishment.

SAN PEDRO, Oct. 1.—Luke Kelly, who was fined \$10 in Justice Downing's court for assaulting John T. Gaffey, as the latter was alighting from a street car on Beacon street late Tuesday afternoon. The charge of disturbing the peace as preferred against Downing was dismissed.

The lower part of the body was uninjured, but the back part of the skull was broken and the brain exposed. Near the left shoulder, a nail was driven through the body. Death must have been instantaneous. A physician was called and the coroner at once notified. An inquest was held later in the day, verdict of accidental death.

Mr. Maddock was a highly-respected citizen, and his sudden and untimely death has produced a shock in the community. He was born in Dundas, Canada eighteen years ago and purchased a valuable tract of foothill land on Duarte avenue. He was one of the most successful orange growers in the San Gabriel valley. He was a member of the Orange Blossom Festival Committee.

The trouble between Kelly and Gaffey grew out of the latter's opposition to the former's water-front grab, which Kelly insists he desires for bathhouse purposes but which, it is believed, he wants for some corporation.

When the case came up this afternoon, both Kelly and Gaffey were on hand, together with their attorneys.

When his attorney came to the fight Tuesday afternoon Kelly was striking at Gaffey, and the latter was trying to defend himself.

Constable Carlson testified that both men had been fighting over the mix-up.

"I was on top," said Carlson.

"Kelly had me pinned down. This done, I arrested both of them."

J. D. Kind stated that he was on the opposite side of the street when the fight commenced and that he did not see any other person coming to the scene.

He had a right to anticipate any trouble, as he had partied friend before. As usual, I said, "Hello, Luke, but no sooner had spoken than he applied some varnish oil to my face and struck me in the face. This was a complete surprise to me, and for a while I could not imagine what on earth had possessed him. I don't know where he got it. We fought on the street until a crowd parted us. Luckily there was no serious damage done."

Justice Downing asked Kelly if he desired to make a statement, and he answered, "No."

"Very well," said the court, "I shall discharge Mr. Gaffey, and fine him \$10,000, to be paid within 10 days."

Mr. Gaffey had apparently no money, so he was given 10 days to pay the fine.

He coolly accepted the punishment promptly paid. Thus the third chapter of the water-front fight was concluded.

ALHAMBRA.

DOLGE AT DOLGEVILLE.

ALHAMBRA, Oct. 1.—Alfred E. Dolge, of felt factory fame, has taken possession of the old San Gabriel winery property, including the winery buildings and twenty acres of land surrounding them, adjoining Alhambra on the west. Of course the property is controlled by Huntington, but Mr. Dolge is a large stockholder in the concern and general manager of the new felt factory, and also the promoter of the model factory town to be created in that vicinity. The wine property was put into Mr. Dolge's hands by his father, Alfred E. Dolge, Jr., 49, who died last year.

An effort is now being made to continue this arrangement for one year, and the patrons of the High School are being asked to contribute to the fund.

Mr. Gaffey had a right to anticipate any trouble, as he had partied friend before.

When his attorney came to the fight Tuesday afternoon Kelly was striking at Gaffey, and the latter was trying to defend himself.

Constable Carlson testified that both men had been fighting over the mix-up.

"I was on top," said Carlson.

"Kelly had me pinned down. This done, I arrested both of them."

J. D. Kind stated that he was on the opposite side of the street when the fight commenced and that he did not see any other person coming to the scene.

He had a right to anticipate any trouble, as he had partied friend before.

As usual, I said, "Hello, Luke,

"but no sooner had spoken than he applied some varnish oil to my face and struck me in the face. This was a complete surprise to me, and for a while I could not imagine what on earth had possessed him. I don't know where he got it. We fought on the street until a crowd parted us. Luckily there was no serious damage done."

Justice Downing asked Kelly if he desired to make a statement, and he answered, "No."

"Very well," said the court, "I shall discharge Mr. Gaffey, and fine him \$10,000, to be paid within 10 days."

Mr. Gaffey had apparently no money, so he was given 10 days to pay the fine.

He coolly accepted the punishment promptly paid. Thus the third chapter of the water-front fight was concluded.

## Stylish, Comfortable Footwear.

The rainy season will soon be here and it is to your best interest to give particular attention to the footwear, for wet feet may mean a severe cold and a long illness, with the consequent doctor's bills. While we concede that other merchants sell good shoes, we wish to impress you that no one else sells quite so good shoes as ourselves at such low prices. There are several well known brands of shoes for which we are exclusive Los Angeles agents, for which we have an established trade. The following shoe values are all meritorious and are specially featured for Friday's selling.

The "Ebell" Shoe for Women—famous throughout California and for which we are exclusive agents. They are made on 80 different lasts; a shape for every foot, and are in all wanted leathers and there is but one price for all, \$3.50.

Misses' \$1.75 School Shoes—Dongola kid; lace style; patent leather tips and extension soles. They are well made, very serviceable and are \$1.35 priced at per pair .....

Misses' Dress Shoes—Vic kid; lace or button style; either light weight or extension soles; all of them comfortable lasts and dressy shapes and are \$2.00 the best value in the city, at .....

The "Elko" Shoe for Men—a shoe which gives more comfort and more service than any other shoe at its price. They are in stylish shapes; are all good grades of leathers and are sold at this store exclusively. Price per pair .....

Boys' Dress Shoes—Vic kid or box calf; made with Goodyear welt soles; are in neat dressy lasts and are \$2.50 exceptional values at .....

Boys' School Shoes—genuine box calf; made with double soles; all seams extra well sewed. They are the best wearing shoe in the city for the money. Sizes and prices as follows:
